No matter how much he may protest otherwise, Judge Keith will be compelled to make a political decision in the case. He must decide whether the political working class has the right to organize free of illegal FBI and police infiltration, harassment, surveillance and sabotage. If he decides that the Rockefeller CIA machine is free to act illegally through its FBI and police frontmen, this will not be on the basis of "legal" technicalities. Evidence of FBI sabotage is overwhelming, and the Labor Party is able to show why and how it is occurring. The only reason for suppressing a full hearing in this case would be that Judge Keith has been pressured or decided himself that the danger to the machine is too great.

It will come as no surprise if Judge Keith's sympathies lie with Rockefeller. Keith was awarded the NAACP's 1974 Springairn Medal for the "most distinguished achievement by a black." In making the award, the NAACP cited Keith's "primary achievements...a series of landmark decisions reaffirming the rights of American citizens—irrespective of race, creed or color—to enjoy the full benefits of the liberty protecting provisions of the Constitution."

One of Judge Keith's "landmark" decisions was the

1970 Pontiac School desegregation ruling on a suit brought by the NAACP. It was this decision which provided the CIA/LEAA with fertile ground for its race riot organizing, overseen and fueled by the FBI with none other than the defendants being brought to court now by the Labor Party: Special Agents Mercado, Jones, and Higgins. Judge Keith himself helped feed the racial fires in 1971 when he refused to sign an order placing federal marshals in Pontiac during the busing furor "because it would have caused a holocaust."

Prior to his appointment to the bench in 1967, Keith was actively involved in the assault on construction unions as chairman of the Michigan Civil Rights Commission and in the development of various scab programs as a Governor Romney appointee to the Michigan Committee on Manpower Development and Vocational Training.

In addition, Judge Keith was the law partner of John Conyers, now Congressman from Michigan, and 1972 cohort of zombie CIA agent Imamu Baraka at the "Black Political Convention." More recently, Conyers sponsored a "Community Anti-Crime Assistance Bill," a piece of CIA/LEAA legislation which provides for total gestapoization of cities.

Dr. Ackerman Initiates Meeting to Establish Commission

July 22 (IPS) — Dr. Norman Ackerman, chairman of the Committee to form a Commission of Inquiry last week issued a call and invitation to the July 23 New York meeting of Commission members and other interested individuals. The Committee was formed in January 1974 to initiate investigation of charges by the National Caucus of Labor Committees of CIA brainwashing of Labor Committee members and other CIA domestic activities.

A prominent New York psychiatrist, Dr. Ackerman proposes in his call that the Commission adopt the name *Commission of Inquiry into Thought Control* and establish itself as a totally autonomous, non-profit, corporate entity.

Outlining the reasons for convening an active Commission immediately, Dr. Ackerman gives a history of Labor Committee activity and his own work to put a stop to criminal brainwashing and programmed

behavioral modification in this country. Agreeing to head up the Commission, Dr. Ackerman proposes as a working agenda for the Tuesday meeting a discussion of the Commission's history, its composition, work, and financing. He suggests a membership of 20 from New York City proper to function as a steering committee and 20 additional Commissioners from other parts of the country who will form functioning subcommittees around them. An organizational newsletter is proposed, as well, to keep Commissioners and members of a 1000-member support body, *The Committee to Sponsor a Commission of Inquiry*, apprised of the current work and problems of the Commission.

Dr. Ackerman's vigorous work forwarding the Commission's organization should lead at Tuesday's meeting and subsequently to an increasingly active investigation to stop the mind-destroying activities of the Rockefeller cabal and its police arms.
