

Brzezinski Plans Israeli Coup To Avert Peace

Zbigniew Brzezinski's National Security Council launched a plan this week to force a military coup against the government of Israeli Prime Minister Menachem Begin. The coup, which would be led by Foreign Minister Moshe Dayan, is the leading edge of a Brzezinski-NSC plan to impose Rockefeller's control of the Middle East, crush the Palestinian movement, and secure a firm supply of Saudi Arabia's petrodollars to bail out the bankrupt New York banks.

The plans for the coup against Begin, who in recent weeks has shown signs of breaking with the U.S. and seeking an independent peace arrangement with the Arabs, were announced today in the *New York Times* by C.L. Sulzberger from Jerusalem. If Begin "isn't hard enough to suit his hawkish generals," Sulzberger warned, "they may whip off their hoods." Long-time Rockefeller conduit Sulzberger reported signs of a split between Begin and the triumvirate of generals in the Cabinet: Dayan, Defense Minister Ezer Weizman, and Ariel Sharon.

Brzezinski's goal is to use the threat of unleashing the Israeli military to force the Arabs to accept total U.S. political control of the Middle East. Strategically, the NSC takeover plan for the Middle East is designed to block the emergence of a European-Arab axis that, with Soviet support, would challenge the dollar empire with a new monetary system based on the transfer ruble and the Arab dinar.

"If the Arabs were totally defeated in war and on top of that were to feel guilty — both for the conflict and for their defeat, like the Germans after World War II — then it's a possibility they could accept truly significant changes," raved the psychotic NSC director in an exclusive interview in the *Jerusalem Post* on July 11. The purpose of negotiations, he continued, was to "test the degree of the (Arabs') willingness" to accede to Carter's blackmail.

Soviets Warn Against War

A Middle East war, whatever the fantasies of Brzezinski and Co. who may believe that the USSR would remain quiet, would in fact immediately engage the Soviet Union in a no-holds-barred military support effort for the Arabs — including the thermonuclear obliteration of the United States, if they are forced to.

The fact that the Soviets would involve themselves in another Middle East war is known both to Israel and to Egypt. The chief of staff of the Israeli armed forces, General Mordechai Gur, announced yesterday that the arrival of USSR land forces in Egypt and Syria is a probable contingency in the next war. "It is difficult to

assess how they will come in," said Gur. "They should bring a lot of forces." Earlier, a Kuwaiti newspaper reported that Egypt and the USSR, in recent talks in Moscow, had agreed that the Soviet Union would launch an unlimited military airlift if Israel launches a war.

An official Egyptian spokesman was more blunt. "I know that U.S. officials know that the United States would lose another Middle East war," he said. "The Soviets have served notice on Washington that they will land forces in the area if war breaks out. Nuclear weapons will almost certainly be used, and Tel Aviv will be wiped out."

The result of such a conflict, given the Carter Administration's headlong plunge into confrontation with the USSR, would be the eruption of World War III.

Arab Diplomat: Administration Officials Know U.S. Will Lose Next Mideast War

A representative of the Egyptian government recently gave the following interview to a U.S.-based reporter:

Q. What is the Egyptian government thinking about the upcoming Carter-Begin meeting?

A. The American Administration knows very well that Israel is preparing for war and the Americans, nonetheless, are not exercising enough pressure to prevent Israel from doing this.

Q. But isn't your assessment in contradiction to the position taken by your government, which continues to state that Carter is for peace?

A. No, what we have said is that if America puts pressure on Israel peace can be achieved because of the U.S. influence on Israel. Look, Carter has gotten the message from the new Israeli government, and it is clear: hard line toward the Arabs and war. And, what's more, my understanding is that there are officials *within* this administration who have understood clearly that the sole loser of another Arab-Israeli war will be the U.S. Israel will not come out a winner.

The Soviets have given a message to the U.S. and to the Arab governments that if Israel provokes another war the Soviets will land divisions in the Middle East!
