We've Nothing To Fear But Pessimism Itself

Dec 16—LaRouche Democrat Kesha Rogers electrified the nation when she won the Democratic Primary in Texas' 22d Congressional District on March 2, with her call to impeach President Obama. She went on to capture 30% of the vote in a three-way race against the incumbent Republican.

Today she again declared her candidacy for the same Congressional seat, with these ringing words.

“In the aftermath of the 2010 elections, two things were immediately clear: that the rage of the population, against the perfidy of Obama and the failed Democratic leadership, drove them to vote against a problem, rather than for a solution; Obama has joined with the new Republican majority to form a fascist alliance, pushing the same killer austerity and bailout policies. Second, this fascist alliance will continue suppressing the science- and industry-driven, protectionist policies defined by economist Lyndon LaRouche, needed to put the country back to work in productive jobs, and chart a course of physical economic development over the next three generations. We are already seeing the deadly results of the actions of Obama-GOP alliance.

“The threat of global hyperinflation, international bankruptcy, and dictatorship, is becoming palpable to even the average citizen. Our cities and states are bankrupt and collapsing. Massive budget cuts to the public welfare are leaving us exposed and vulnerable to preventable catastrophes of fire, violence, disease, and natural disaster. This, while unconstitutional taxpayer bailouts are being exposed as fueling an international speculative casino, with payouts to everyone from the Inter-Alpha Group of European banks, to McDonald's and Verizon. The Presidency has failed, the new Congress has failed, and unless the people force a dramatic change in policy, our nation will disintegrate, in the immediate weeks and months ahead.

“In such trying times as these, to paraphrase the words of President Franklin Roosevelt: We have nothing to fear, but pessimism itself. The only reason people are pessimistic about the above situation, is that they

aren't yet aware of the great potential we have, to implement the solutions.

“In the dark days of the Revolutionary War, when defeat seemed imminent, Gen. George Washington acted decisively, leading his troops across the Delaware River, to win the battle at Trenton, turning the tide, to ensure a victory for the nation over a known foe, the British Empire. Washington knew, that leadership does not wait until it is popular to intervene, or the accustomed 'right time' to do so. Thinking as a patriot in a war, requires that you dedicate your whole being to winning the war, and figuring out how to do what is needed.

“As I watched these threats darken our nation's future, I reflected upon the courageous leadership of General Washington and President Roosevelt, and I said to myself, 'Now is the time to act. I will not wait around, hoping someone else will take responsibility. I must take up the cause.' That is why I ran for Congress in 2010, and why I am now launching my candidacy, at this moment, for the 2012 Congressional election.

“The solutions I am bringing forth are clear, and every friend of our republic shall realize their immediate benefit. These solutions are already in the process of being implemented, by organizing done with the LaRouchePAC, and my campaign will be escalating that fight:

“We must go with a global reconstruction and development program, with infrastructure projects link-

ing all nations together in cooperation on furthering the scientific and cultural greatness of mankind. This requires that we break with the current, bankrupt world monetary system of free trade.

“The 1933 Glass-Steagall Act, separating and protecting all legitimate banking assets from their rotten gambling notes, must be reenacted, to stop the bailout, and ensure sovereign control over domestic affairs and improvements. The cartel arrangement between the Inter-Alpha Group of banks and corporations, known as the British Empire, has bankrupted itself, and the nations of the world must not destroy themselves to bail it out. Obama is a psychotic puppet of this empire, and must be removed now, by invoking the 25th Amendment, Section 4, of the U.S. Constitution.

“Once liberated from the shackles of monetarism, we must fulfill our role as creative beings in our Solar System, by launching the greatest scientific and technological projects ever conceived by mankind, to engineer and terraform the Biosphere; exert dominion over the Periodic Table on behalf of mankind, with technologies of nuclear fusion; and explore and colonize our Solar System. This will provide a real sense of mission and purpose for our youth, imbuing in them a sense of self-worth, from the joy that comes by contributing to the betterment of our country and its posterity.

“So, the decision to act in joining me in this fight, is yours. There can be no compromise with pessimism. If we are to survive, we must destroy the pessimism and demoralization which has gripped our population, with the power of profound ideas. March on, and we shall gain the victory. March on, and we shall gain the day. *Independence Forever!!!*”

Rachel Brown

Fighting Words Launch Campaign for Congress

Dec. 16—LaRouche Democrat Rachel Brown, who inspired tens of thousands of Massachusetts voters, and gave corrupt Rep. Barney Frank the run of his life last November, today declared her candidacy for that seat, recalling President Franklin Roosevelt’s courageous,

optimistic leadership during some of the darkest days of the last century.

Here are her words.

“‘We have nothing to fear but fear itself,’ are the well-known words of President Franklin Roosevelt; but do we really understand what he meant? After having elected another slate of Congressmen out of hatred rather than support for a real policy, now the population, and Congress members themselves, are demoralized; they are pessimistic about our chances of winning the big, crucial fights. This is the type of pessimism which is crippling. This is the factor which allows a nation which could otherwise overcome present challenges, to fail.

“LaRouchePAC, and our three candidates, including myself, are not going to allow our citizens to become demoralized, because there are clear solutions, and they are embedded in our nation’s history. Now is the time, to start acting like an American again. Today is the anniversary of the Boston Tea Party. Remember the tea of the British East India Company, which we calmly refused to accept? Remember the non-importation of British goods, beginning in 1768? We understood then, what the crucial issue is, now. National sovereignty must be defended.

“Glass-Steagall and NAWAPA are the way out. Glass-Steagall is the only way to wipe the worthless speculative debt obligations off of our nation’s books.
