## From the Editors

From the very founding of our nation, Americans saw themselves as taking responsibility for the betterment of all mankind, through the building of an exemplary republic. Never has that sense of responsibility—so dissipated today—been more necessary than in the circumstances of today, when the United States has the unique capability to short-circuit the imminent threat of nuclear war, and launch a real economic recovery worldwide. It starts with impeaching British stooge Obama.

This issue of *EIR* provides vital intelligence for those patriots and world citizens prepared to take that responsibility. Start with Ukraine, which the British are using to detonate thermonuclear showdown. We uniquely publish the full Feb. 28 Paris webcast of Ukrainian political leader Dr. Natalia Vitrenko, which dispels the disgusting war propaganda on that conflict flooding the Western press (*Strategy*). Vitrenko gives you the history and up-to-date picture of the Western-supported Nazi takeover that now threatens to take us to World War III.

Our report on Helga Zepp-LaRouche's recent visit to China supplements the Ukraine report by providing an in-depth strategic picture of why the British Empire has provoked this crisis, and the solution which is at hand (*International*).

Can Obama be impeached in time to avert the war? The just-declared results of the Texas Democratic Primary for Senate give us a resounding "Yes"! LaRouche Democrat Kesha Rogers, running on a program of impeaching Obama and crushing Wall Street, confounded the opposition and came in a strong second. She will contend with her Obamaton rival in the runoff in late May, and until then, be campaigning heavily with LaRouche Democratic Congressional candidate Michael Steger, running for Congress in the San Francisco area, on the emergency measures needed to address the drought now crippling the U.S. food supply from Texas and California (*Economics*). Step one, again, is, impeach Obama.

Don't miss our other unique features. First, an autobiographical sketch by Lyndon LaRouche, "My Science and Our Society" (*Feature*). Second, an interview with former Malaysian Prime Minister Mahathir Mohamad, a prominent fighter against the British Empire (*International*).
