LaRouche Answers Question On South American Union

In response to a question on whether a South American Union could be formed, within a BRICS alliance, to strengthen their economies, with connections of high-speed trains, Lyndon LaRouche gave the following reply.

Yes, but only under appropriate new conditions among those respectively sovereign nation-states. That means that the economies composing the union, for that purpose must not be subject to an agency outside that set of respectively sovereign nation-states composing the origins.

The threat to any such cooperative undertakings would be subordination to powers and agencies outside the set of relevant, associated, respectively sovereign nation-state republics composing the agreement among what are essentially the participants in a 1648 Westphalian principle agreement. Heretofore, such agreements among member-states of the Americas have been prevented, chiefly, by the British Empire’s dominant position among the trans-Atlantic community. There can not be any alien imperialist intrusion among the members. In other words, the individual partners must not be subject to a monetarist tyranny of economic relations among those nations which intended themselves to be sovereign, such as the virtually globalist British imperial tyranny which presently dominates the planet as a whole, or nearly so.

The model for medieval and modern imperial tyrannies have been, chiefly, the ancient Roman and modern Dutch-British Empires, otherwise to be known as the modern British empires echoing the tyranny of the Satanic Zeus. These are the forces of evil which dominate, among other governments, the imperialist political-economic systems which dominate all of the Americas presently, including that of the USA.

The typical modality employed for imperialist operations is based essentially on what are to be recognized as monetarist systems, under an arrangement in which monetary authority reduces economies of nations to puppets of monetarist imperialisms.

For example: The process of corruption which has led, repeatedly, to the foreign subjugation of the U.S. economy began with the follies of U.S. Presidents such as Presidents John Adams, Thomas Jefferson, and James Madison. That corruption of our USA Federal Constitution, had been turned back under reforms introduced by Presidents Monroe and John Quincy Adams. The subversion of the U.S. Federal Constitution, has been customarily established, repeatedly through the hoax named “states rights.”

In fact, the origins of chronic returns to the treasonous implications of U.S. submission to the states’ rights cult in the Americas, began with the assassination of U.S. Secretary of the U.S. Treasury, Alexander Hamilton, by the British professional assassin, Aaron Burr, a Burr who was tolerated by the complicity in the “states rights” practices which turned the United States itself, repeatedly, into a British imperial puppet: up through the present moment of this report. Just so, President Abraham Lincoln was assassinated on behalf of the British Empire, like President William McKinley, who was murdered for benefit of the treasonous Theodore Roosevelt, and like both President John F. Kennedy and his brother Robert, as with the similarly motivated, and intended assassination-attack against President Ronald Reagan.

The immediately evident evil of all monetarist policy, is that it tends, inherently, to the international reign of imperialist rule among even nominally sovereign nation-states. Those institutions which are nominally independent nation-states, including most apparently sovereign nations, are degraded into victims of international monetarist systems. All imperialist systems of modern times are based on economic control under the domination of foreign monetarist systems, for the case of the United States presently, as under, chiefly, British imperialist modes of monetarist imperialism, as such as the case of the British puppet-system known as the Wall Street which has been a British imperial “loan shark” since the very beginning of its existence.

Most assassinations of U.S. Presidents, and certain others, inside the United States, have been motivated by the relevant President’s threats to the British Empire’s puppets in the United States.
