EIR

From the Editors

As we wrap up this issue of *EIR*, the Obama Administration, at the behest of its British sponsors, is on the verge of touching off a new phase of global war, which will be “uncontrollable,” in the view of Lyndon LaRouche, and could lead to world conflagration. Russia and China have both weighed in against the Administration’s declared intent to effectively wage war against Syria, not ISIS—an insane, foolhardy flight-forward. Congress appears ready to let it all happen—and, in an act of cowardly insanity, rush home to campaign for re-election.

Our *Feature* story on the fight to release the crucial information about the Saudi role in funding 9/11, provides a vital weapon for preventing this disaster. Read the full transcript of the Sept. 9 press conference of the 9/11 families; watch the video on www.larouche.org, and get it around everywhere. Sen. Bob Graham, whose recent initiatives we report at length, is doing a terrific job, but this is a life-or-death issue for not only every American, but world peace.

Americans do have an alternative to falling into the British trap of global war, and we continue our unique, in-depth coverage of this alternative, the emerging New World Economic Order led by the BRICS. We have two major contributions: first, the webcast report-back of her trip to China by Helga Zepp-LaRouche; and second, a comprehensive report on the China-Russia-India advances toward a new technological platform for development. Mrs. LaRouche has promised us much more—but you will get a flavor in this week’s report (*International*).

Also of note is our report on the recent Pacific Basin Nuclear Conference (*Science & Technology*), which showed the Pacific nations poised for advancing the nuclear agenda. A leading Indian nuclear scientist, Dr. Srikumar Banerjee, elaborates in an exclusive interview with *EIR*.

The dangers for mankind under the current imperial system go beyond the Southeast Asia war threat, of course. Among the leading ones is the threat of biological holocaust represented by the Ebola epidemic now ravaging Africa. Debra Hanania-Freeman, a doctor of public health, gives us a comprehensive report on the origins and the danger. Another is the ongoing confrontation by the EU and U.S. against Russia—which is, in fact, pushing Russia to move more rapidly toward a sovereign credit system, if the West doesn’t provoke nuclear conflagration first (*Economics*).
