

YOU ARE WARNED!

New British Ambassador to South Africa Leads Regime Change Effort

by Ramasimong Phillip Tsokolibane, leader of LaRouche South Africa

June 22—As the leader of the LaRouche movement in South Africa and as a patriot, I issue the following warning: Beware Perfidious Albion! The Brits have deployed a specialist in regime change operations as their High Commissioner (ambassador) to South Africa.

I have received an intelligence [memo](#), prepared by a qualified associate of mine, which details the career of Britain's new High Commissioner, Mr. Nigel Casey, who has been at his post here since at least April 18. Mr. Casey is a trusted operative of Her Majesty's government, moving in his career as a diplomat through postings which also appear to include management of the type of covert operations which have been deployed by the Queen Bitch against the "troublesome" government of President Zuma, with its visible support for the anti-imperial policies of peace and development espoused by both President Xi of China and President Putin of Russia.

Most notable is Mr. Casey's role in an attempted regime change in Bosnia and Herzegovina while Ambassador there from August 2011 through January 2014; the fruit of his efforts was seen less than a month after he left, when bloody violence erupted in Tuzla. The Brits would like to engineer a similar result in our nation, plunging it into bloody chaos and making it ungovernable, as a way to stop motion in our country towards the new global order being ushered in by the Chinese and Russians, to replace the decadent and dying British Empire-dominated global monetarist system.

The deployment of Mr. Casey to South Africa is not surprising on a number of counts. For one thing, the Zuma government, whose leader the Brits privately (and occasionally, publicly) ridicule, has so far stymied an elaborate and continuing regime change operation against it. We have witnessed the open support of that regime change operation from the U.S. Administration of British asset Barack Obama. And we have been the target of the Nazi-loving billionaire speculator George Soros through his various front organizations. Now,

with Washington moving in a different direction under the new American President Donald Trump, London must take charge of the regime change operation in its own name.

So much the better for patriots of this nation. It makes clear who we are fighting—the British Empire. It should give you further impetus to heed the call that I have been making for some time: that we finally take our feet out of the dirty backwaters of the British Empire, and move fully into the new expansive sea of change that is the BRICS alliance and China's Belt and Road Initiative. Delaying such actions will only give Mr. Casey and his minions more time to work their deadly mischief.

If there should be any surprises that open the door for regime change, lay the blame on Mr. Casey and the Brits. But why wait for that? Far better, shut the whole operation down now! Pull out of the Commonwealth, and cut our ties with Perfidious Albion! You have been warned.
