

Facts Behind Terror by Jeffrey Steinberg

Yellow alert on U.S. terrorism

The Socialist International and its allies have chosen the targets.

The recent firebombing of U.S. National Guard planes in Puerto Rico can be traced directly to previous actions by Carter Attorney General Benjamin Civiletti, who, in a 1979 deal with Fidel Castro, released four unrepentant Puerto Rican terrorists. This set off an immediate wave of assassinations of U.S. military personnel on the island; the same terrorists who carried out these "hits" now claim responsibility for the aircraft bombings.

During 1980, waves of clearly organized murders hit U.S. cities: Miami, Atlanta, Buffalo, and KKK-communist shootouts in Greensboro, N.C. In every case the Justice Department's Community Relations Service was on the scene in advance.

Behind the scenes in the United States there is a "yellow alert" Oa-gainst a suspected wider outbreak of terrorism in the weeks ahead. The list of targets of Communist Workers Party and Yippie violence include one well-known state official, and former Democratic presidential candidate Lyndon H. LaRouche, Jr.

But security agencies are getting information from undercover sources indicating something much bigger and nastier is afoot. The gutter groups' control has been traced to the European cabal of socialists and "black nobility" feudalists who have terrorized Italy

The Eurosocalists' and feudalists' "assets" in America include the very highly placed assassination ring known as "Permindex." Per-

mindex killed John F. Kennedy, tried to kill Charles de Gaulle, and commanded coverup capabilities from the Warren Commission on down. When New Orleans D.A. Jim Garrison went after Permindex in the JFK assassination, he was crushed with the help of Johnson's radical leftist attorney general, Ramsey Clark.

While not speculating openly about Ronald Reagan's security, specialists are taking precautions. The Paris socialist-terrorist newspaper *Libération* recently published a picture of Reagan with a target-mark on his head. This is, after all, the way some international factions contest American elections—and try to change the results afterwards.

Investigative Leads, the counter-terror division of *EIR*, has just released an alert and dossier on the new "Permindex" threat. The dossier's principle is that the way to neutralize a possible assassination attack on a highly protected President is "to place a public finger directly on the only organized capability adequate to conduct such a high-level political assassination."

In the continuing investigation into the JFK killing by current assassination target, Lyndon LaRouche, his associates have secured original private records of a now-defunct Permindex branch in Rome, the Centro Mondiale Commerciale. These documents tie Permindex head Major Louis Bloomfield, attorney to the Bronfman family, directly into the Italian

"black nobility" centered in Genoa and Venice. The documents also corroborate key features of Garrison's 1963 probe, including his suspicions of elements of J. Edgar Hoover's FBI.

Prominent in Permindex since its 1957 beginnings is Roy Marcus Cohn, attorney for the late Carlo Gambino and Studio 54, who has been linked to incitement to kill LaRouche in the New York news-sheet *Our Town*, another Cohn client. Cohn was Rasputin to Sen. Joe McCarthy in the early 1950s, and a darling of J. Edgar Hoover. By similar channels today, Permindex and its socialist backers have infiltrated conservative think tanks tendering advice to Ronald Reagan.

The Eurosocalists, the feudalists and London Special Operations Executive, and their KGB agents-of-influence in Moscow around British triple agent General Kim Philby took a humiliating moral defeat with the Reagan landslide. The danger is that desperate to isolate and paralyze the President with urban riots and terrorism in his "first 100 days"—with an assassination contingency plan if that fails.

Right now, intelligence and security circles internationally are advising priority surveillance of two groups' operations in the United States: Cuban intelligence service (DGI) connections to socialist renegade "CIA agent" Philip Agee; and the Armenian Secret Army (ASA) connection to the KGB.

The bigger problems are Permindex; the "Heritage Foundation syndrome" around Reagan; and the Community Relations Service of the Carter-Civiletti Justice Department.
